English (Intermediate)

SKILLS & EXPERIENCE

MULTIACKING

- work with platforms like Gleam, Galxe, Alphabot, Premint;
- abuse/automatisation of testnets/retrotrops;
- project multiacking (whitelists, forms, drawings, etc.).

WEB AUTOMATION

- creating independent scripts for performing browser tasks that need to be repeated constantly;
- writing semi-automatic strips for creating accounts (for P2Es, testnets, free drops and other similar purposes).

NFT'S

Flips, WAX & Solana sales, Ethereum WL's/mints. Also participated in sales on CEX, such as Binance NFT, Kucoin, etc.

PLAY TO EARN

Research P2E on different blockchains (free, less often with investments) in order to earn money. Contributed in such games as — Farmers World, PVU, Sunflower Farm, Avegochi, Pixels and others.

LINUX SERVER MAINTENANCE

Installation/launch nodes of different complexity, setting up and maintaining the server for gaming purposes.

BASIC KNOWLEDGE OF PHOTOSHOP, SONY VEGAS, AUDACITY

Photoshop — creating previews for videos/articles, minor photo editing, simple icons/banners, Sony Vegas — for basic video editing (gluing together small technical fragments), editing tutorials, creating simple video instructions, Audacity — noise reduction, normalization, clipping of unnecessary sounds, compression.

SCENARIO WRITING & CONTENT PLANNING

Experience with YouTube channel, independently increased the number of subscribers from 0 to 15k (without promotion) due to useful content Selection of topics with a good competitiveness/interest ratio.

WORKING WITH THE COMMUNITY

Moderation, regular responses to user comments/questions with an understanding of the needs and desires of users, providing them with the necessary resources.

TEAM MANAGEMENT

Creation and work with small teams (up to 10 people). Basic knowledge of management, Trello (+ high-quality integration with Google calendar).
